

Scope & Sequence of Literature Used in MLC Classes

Info gathered 5/2014

Rationale: Good communication between staff with regard to books read aloud to the students and books read by the students in each grade will help reduce duplication. We should refrain from repeating books at any grade. With the abundance of literature available there are ample choices to prevent repetition.

If you desire to use a book in your class that is listed under another grade's booklist you are asked to talk to that teacher prior to use to see if that is possible.
